#1 What the hell is Blockchain?

Blockchain is a decentralized P2P **shared ledger of transactions** forged by consensus allowing any participant to see the complete history of records and ensuring immutability.

#2 DID and digital contracting

User centric identity with “the assumption that every individual ought to have the right to **control their own identity**”

It will identify devices, customers and companies.

#3 bloXmove - Mobility Blockchain Platform

A shared B2B platform which connects all different mobility providers in an **urban Mobility Alliance**.

Customers can book seamless journey from A to B, **the providers keep their customer touchpoints.**

Crypto Quiz - BLXM Token Utility - 'How to buy' guide

WARM UP THESIS

In future, crypto currencies are the new money in our everyday life.

Token

A digital unit designed with utility in mind, providing access and use of a larger crypto economic system.

Fiat

Fiat currency is “legal tender” backed by a central government, such as the Federal Reserve, and with its own banking system, such as fractional reserve banking. It can take the form of physical cash, or it can be represented electronically, such as with bank credit.

Cryptocurrency

Cryptocurrencies are digital currencies that use cryptographic technologies to secure their operation.

HODL

A type of passive investment strategy where you hold an investment for a long period of time, regardless of any changes in the price or markets. The term first became famous due to a typo made in a Bitcoin forum, and the term is now commonly expanded to stand for “Hold On for Dear Life.”

Initial Dex Offering

An initial dex offering (IDX) is an alternative to an initial coin offering (ICO).

BLXM – our layer 2 token

What is the utility behind the bloXmove token?

utility #1:

BLXM is the only token utilized to pay for decentralized mobility services on bloXmove. Transaction fees are also paid in BLXM.

utility #2:

In our “hybrid” scenarios BLXM are also used to pay for B2B liabilities

utility #3:

Token burn 10%-40% of all transaction fees in BLXM will be burnt, until min. supply of 10 million units is reached

utility #4:

Invest in a future scenario of smart mobility and green energy where we will reward the usage of shared electric mobility
